Overview

DS-4024-A4 (Advantix – powered by Fastwel) is an average capacity data storage system designed for the use as a network attached storage (NAS) or cost-efficient storage area networks (SAN). The system can store up to 24 x 3,5" drives with a total volume of up to 336 TB with the use of 14 TB drives. The system's outstanding feature is its short length – 560 mm, which makes it possible to be installed into narrow racks (600mm) and a possibility to install full-height expansion boards (graphics card, I/O board). This enables to use it in video surveillance solutions. The standard connection interface – two Gigabit Ethernet ports. Additionally - 10 / 40 Gb/s Ethernet, 16 Gb/s Fiber Channel, as well as 12 GB/s SAS.
